

December 13, 2021

Dear Valued Client,

We wanted to update everyone that we will now be allowing clients into the veterinary hospital to accompany their pets for medical exams with the following conditions:

- 1) Clients must show a valid QR code at the door to confirm they have been fully vaccinated
- 2) Clients must show a valid ID to confirm their identity (Driver's License, Etc).

We are still restricting the number of clients that we can have enter the facility at one time. As long as the main reception area is empty, you may enter the hospital. If there are people in the lobby, we ask you to wait patiently, and we will help you as soon as we can.

For those clients who are not vaccinated, or would prefer not to enter the building, we can still offer your appointments or food/drug pickups to be done curbside. Please let us know when you book your appointment what your preference would be.

We look forward to seeing you and your pet in person again!

Thank you for your understanding,

The Staff of Bowmont Animal Hospital
